

My Chat Lesson

Feedback from end users

- It doesn't feel like studying and students can enjoy the lesson while having fun. (Tuition Teacher)
- Very unique concept. I especially love how simple the app is. (8th CBSE Student).
- The functions aren't complicated and the lesson dialogue is funny, engaging (Teacher).
- It's free and easy to use so that makes it appealing to younger students (Tutor).
- Really cool app for students who prefer the 'non-traditional' way of studying (10th CBSE Student).
- Definitely helpful for revision. (9th ICSE Student).
- The chat process is very attractive. (Teacher)
- Extremely helpful as it explains precisely. (10th ICSE Student)
- It has a brief elaboration with proper content. (Parent)
- Students find it easy to learn from this app because it is less stressful. (Parent)
- I like how the important details of chapters are provided without complications. (Teacher)
- It helps in quick mugging up. (9th CBSE Student)
- Descriptions are very compact. (8th CBSE Student)
- This app helps in fast revising. (Parent)
- Definitely saves time with full information. (Parent)
- I like the compact and precise build up. (Teacher)
- I love this app for the chat structure. (10th CBSE Student)
- Well structured along with no extra elaboration. (Teacher)
- This helps kids to learn easily. (Parent)
- I prefer this because kids enjoy learning from it as it's not boring. (Parent)
- Best thing about this app is the chat system. (Parent)
- The process helps a lot in understanding the chapters. (Parent)

- I love this app for studying fast. (8th ICSE Student)
- All chapters are available. (8th CBSE Student)
- Most unique app with all the chapters. (10th ICSE Student)
- The thing I like about MCL is that it makes learning quite fun for me. I don't have to go through the whole prose, I can find the lessons as a story and it's much more interesting that way. When someone tells you a story, you listen keenly and remember it well. It seems like a discussion with your friend, you make your points and they clear the doubts. Definitely, I would recommend MCL to my fellow classmates. They could learn something new too. (10th CBSE Student)
- MCL is user-friendly and all the lessons and subjects are categorised. The app clears all the basic concepts regarding every lesson. Way of teaching is not all boring. (10th CBSE Student)
- Study material is okay and I like the idea of turning the lessons into conversation. (10th CBSE Student)
- Unique teaching method in this new era. Will definitely help the students with this idea. (Teacher)
- Such an innovative way of explaining the concepts. (9th ICSE Student)
- The content is very useful and engaging. (Teacher)
- Going to help a lot of children with this idea as today's children are mostly stuck to their mobiles chatting. So I find this method very innovative. (Parent)
- I think the app is very easy to use and it's free as well which is the biggest point. (10th CBSE Student)
- Chapters are explained in a simple, conversational language, making it easier to retain the information. (10th Student)
- Easy language, understandable functions, accessible, free of cost. (10th Student)
- Loved the app, the structure and the explanation was amazing. (10th Student)
- I'll be promoted to Class 9 soon and checking out some of my syllabus on MyChatLesson really helped. The explanations are easy to understand and the accessibility of the app is incredible. I have no complaints. (8th Student)
- With ICSEs only a year away, I'm glad I found MyChatLesson at just the right time. The casual conversational style of explanation really helped. (9th Student)

- I like the chemistry chapters, they're very easy to understand. (9th Student)
- All the physics chapters are my favourite. I love this app! (10th Student)
- The history ones are really amazing, with ICSEs being 3 months away, I'm so glad I found MyChat Lesson! The whole team did a really great job! I hope to see more ICSE chapters in the future. (10th Student)
- All my students have incredibly positive feedback. As a tutor, I'm very impressed by this initiative and have high hopes for it. With a few more pictorial explanations and solved problems in Physics and Chemistry, MyChatLesson would be unstoppable. (Tutor)
- It is very innovative and might appeal to young kids because of the chat interface. It doesn't feel like studying and students can enjoy the lesson while having fun. (Tuition Teacher)
- This app has introduced a great way of learning for students. (10th CBSE Student)
- This app is really fun to use and has really great contents. (10th CBSE Student)
- User interface is really good and it's not at all complicated. (Teacher)
- It's very interesting and facilitates my child's learning. (Parent)
- The accessibility. It's free and easy to use so that makes it appealing to younger students. (Tutor)
- The fact that the app concept has been based on the most enhanced form of daily screen usage for a child. (Tutor)
- The syllabus is explained in a simple and conversational tone, keeping the kids interested. It's precise and informative. (Tutor)
- This app has a really unique and fun way to help the students to go through their lessons easily. (10th Student)
- We are getting all the chapters of our books. (10th Students)
- As a tuition teacher, I feel like this app is very handy and easily resourceful. Students can learn their chapters anytime, anywhere with the same concentration they pour into chatting with their friends. (Parent/Teacher)
- Very convenient app for students who find it difficult to focus on reading from textbooks. (Tuition Teacher)

- I love how fun it is to study on this app. It's like studying while texting with friends!
(10th Student)
- A very innovative way to study. I found the chat medium extremely helpful even as a teacher. (Tuition Teacher)
